

BUSINESS SALES PERFORMANCE REPORT

Project Title: Task 1 - Business Sales Performance Analytics

Internship Program: Future Interns Data Science Internship

Repository Name: FUTURE_DS_01

Dataset Used: Superstore Sales Dataset

1. Executive Summary

This report presents a comprehensive data analysis of business sales to evaluate revenue trends, product performance, and regional profitability. The objective is to provide data-driven insights and strategic recommendations to help the business accelerate its growth and optimize operations.

2. Data Cleaning & Preparation

Handling Missing Values: Rows with blank entries in critical fields such as Sales, Quantity, and Order Date were checked and resolved.

Data Formatting: The Order Date field was standardized into the DD-MM-YYYY date format for accurate time-series analysis.

Duplicate Removal: Duplicate transaction records were identified and eliminated to prevent double-counting of revenue.

3. Key Performance Indicators (KPIs)

Total Revenue Generated: \$2,297,200

Total Units Sold: 37,873 units

Overall Profitability: 12.4% Average Margin

4. Core Analysis & Answers to Business Questions

Q1: Which products generate the most revenue?

Technology products and high-end office infrastructure generate the maximum revenue share.

Top 3 Revenue Generators:

1. Canon imageCLASS Advanced Copier
2. Fellowes PB500 Electric Punch Binding Machine
3. Cisco TelePresence System

Q2: How do sales change over time?

Sales exhibit strong seasonality. Revenue spikes by over 40% during Q4 (October to December) due to holiday shopping and corporate year-end clearances. January and February represent the lowest sales period.

Q3: Which categories or regions are most profitable?

Most Profitable Category: Technology, followed by Office Supplies. Furniture has high sales volume but low profit margins due to shipping costs.

Most Profitable Region: West, followed by East. Central has the lowest profit margins.

Q4: Where should the business focus to grow faster?

Focus on high-margin items in the West and East regions. Reduce operational and shipping costs for

Furniture in the Central region to unlock hidden profit.

5. Actionable Recommendations

1. Increase warehouse stock for Technology items (Copiers and Phones) by at least 30% before September to prevent Q4 stockouts.
2. Launch targeted promotions and B2B bundles during January and February to stabilize cash flow during seasonal dips.
3. Allocate 60% of the digital marketing budget to the West and East regions to maximize returns.
